NOTICE

Diane Malbin MSW

**A 2 day Workshop for Parents and Professionals
Hobart, Tasmania
30th November & 1st December 2011**

**Fetal Alcohol & Other Neurobehavioral Conditions -
Understanding & Application of a Brain-Based Approach**

Workshop Goal: To develop specific, concrete techniques for working with people with FASD and to develop a plan for their implementation.

The training agenda provides:

1. A foundation for understanding neurobehavioral disorders
2. A framework for developing effective techniques
3. Support for implementation of these techniques in different settings.

Content includes current research-based information on FASD, a conceptual model for applying a neurocognitive approach, and opportunities to develop and plan implementation of strategies. The workshop format includes lecture, slides, videos, and small and large group exercises. Questions and discussion are encouraged throughout. Handouts and resources are provided.

Venue: Baha'i Centre of Learning, 1 Tasman Highway, Hobart, Tasmania

Places are extremely limited so please register early

Registration by 31/10/2011 to admin@den.org.au Cost: \$350.00

Further information: email Vicki@den.org.au

NB: This workshop follows the 2nd Tasmanian Conference on FASD to be held at the Menzies Research Centre in Hobart on the 28-29th November in Hobart.
